## About This Game

Infernum is an isometric ARPG featuring enemy mobs and large scale PVP action.

Up to 12-players fight each other in a high intensity deathmatch with different weapons and magical spells. There are three different skills; Health, Strength and Magicka all of whom affect gameplay in their own way and can be upgraded as you level up.

If a player is on a too high kill streak he can be cursed and swarmed by large enemy mobs.

### Features

### Charity Event + Giveaway:

We feel honored that UpBreakers will be played during the charity stream for the "Kinderhospitzdienst Karlsruhe" tomorrow!

The event will start at 10 am (CET) to raise money for a good cause so we are grateful for everyone who visits the [stream of Gaming Aid](#)[www.twitch.tv] and show their support!

**If you're lucky, you can even get a free copy of UpBreakers for yourself or a friend during the event, so go check it out!**

#### . Auto-detecting quality settings (1.0.0-3448716):

Small but important *UpDate*: The game choses the optimum quality settings for your system at start-up now. You can still set this to whatever you want, though!

#### . Update #1 - New Content, WhatsApp Sticker, Playdates:

**Here we are after one week of Early Access. And we got quite a bunch of things to talk about. Christmas holidays are around the corner, there is a thing called WhatsApp Stickers, we are confessing known issues of the current version to you, we will add two new languages very soon and we want to play UpBreakers with you!**

If you're wondering what we're doing since we released UpBreakers about 1 week ago: The very first thing that we did, of course, was opening a bottle of bubbly - humble as we are 🥳 The initial buzz passed and we noticed that not many things changed. There's still a bunch of stuff to be done until we can call this game truly finished! So, we sat down together and brainstormed our next steps (the details of which we will devulge to you bit by bit). As a result, one of the first things we will be doing next (and are already working on) is some christmasy content - YAY!

#### Christmas Content. UpDate #3: Prison Map and DESTRUCTION!:

We might have teased our next map here and there. So far, we weren't quite at a point to show you pictures, yet. However, today is the day - time for letting you guys and gals know about our progress!

#### TEASING SOME LAYOUT. Localization into Russian and Simplified Chinese:

We added Russian and Simplified Chinese to the ingame languages. Store page will follow soon!
